## Summary

I'm a student of Kiev Polytechnic Institute. I learn Computer Science there. Also I have experience in web development. I like to study interesting things in programming, and this brings pleasure to me. I have skills in **Angular 2+**. I made an online system for passing tests on the technology of M\*EAN together with friends. Now, I'm studying **React/Redux** and ready to increase my knowledge. I forget about the time when I'm doing or studying something I like. I attend English courses to improve my level of English. I also use:

- HTML(PUG)
- CSS(SASS)
- Bootstrap
- Node.js
- REST API
- MongoDB
- MySQL

You can see my work on github <https://github.com/chehivskiiandriy> and my portfolio <https://chehivskiiandriy.github.io/>.
